**Subject:** Omnibus Objection

To whom it may concern:

I, Timothy Bergam, disagree with the decision for PGE to dismiss my claim. I would like  
to state my objections on December 15 2020 with the Honorable Dennis Montali,  
United States Bankruptcy Judge.

Requested info from letter denying my claim:

i: United States Bankruptcy Court; Courtroom 17, 16th Floor; San Francisco, CA 94102

ii: Timothy Bergam; Claim Number (with PGE) 133; Bankruptcy case #: 19-30088 (DM).  
The claim amount is from the appliances and property damaged through faults in the  
electricity lines leading to my home. Head crew member explained to me that this was  
the fault of PGE and not my own. He was the one who informed me of filing a claim  
. **Debtor Name:** Pacific Gas and Electric Company.

iii: damage to my property occurred because of a down/bad neutral line. PGE employee  
informed me that this was through the fault of PGE. Several tests were performed on

our power and all work performed was outside my home and was through faulty lines leading to my home

iv: I, Tim Bergam, understand under penalty of perjury, I am the person with relevant facts that support the response

v: (there was no 'v' in the letter. the letter skipped step 5; there was i;ii;iii;iv;vi; and vii)

vi: Timothy Bergam; 813 Fairfax Dr.; Salinas, CA 93901

cel: 503-853-4054. I do not have legal representation. I received this letter only a few days ago and am responding promptly to dispute the ruling. I have not been given enough time to research or find legal help.

Overall, the letter sent to me denying my claim was confusing and I am unclear if I am submitting my objection to denial of claim to the proper channels. As far as I know, I have. Directions were not clear, even one of the steps in what I should include in this email was missing; completely skipped over making it even more confusing. Letter also states I "must arrange for the Response to be filed with the Court within two business days thereafter."

Please file this response with the Court.

Thank you.

Tim Bergam
